Professional Summary

Passionate software engineer with 5+ years of experience specializing in AI/ML development, data science, and business management. I love creating innovative solutions that bridge technology and business needs, with a focus on scalable systems and user-centered design.

Professional Experience

Senior Software Engineer - TechFlow Solutions

2023 - Present | San Francisco, CA

Leading AI/ML initiatives and architecting scalable systems for enterprise clients.

- Led development of ML pipeline serving 10M+ daily predictions
- Architected microservices platform handling \$50M+ annual revenue
- Mentored team of 8 junior developers and established best practices

Machine Learning Engineer - DataCorp Analytics

2022 - 2023 | Seattle, WA

Developed production ML models and data pipelines for Fortune 500 clients.

- Built recommendation system increasing client revenue by 25%
- Deployed computer vision models with 99%+ accuracy for quality control
- Automated data preprocessing pipelines processing 1TB+ daily

Full Stack Developer - InnovateTech Startup

2021 - 2022 | Austin, TX

Built end-to-end web applications and established engineering processes in fast-paced startup.

- Developed MVP that secured \$2M Series A funding
- Built responsive web applications serving 50K+ users
- Established testing frameworks achieving 90%+ code coverage

Education

Master of Science in Computer Science

Stanford University | 2019 - 2021 | GPA: 3.9/4.0

Bachelor of Science in Computer Science

UC Berkeley | 2015 - 2019 | GPA: 3.8/4.0

Key Technical Skills

Programming Languages: Python, JavaScript, TypeScript, Java, C++

AI/ML & Data Science: TensorFlow, PyTorch, Scikit-learn, Pandas, NumPy

Web Development: React, Vue.js, Flask, Django, Node.js
